

MAE is a Customer focused and Quality oriented company with 700 employees and 4 manufacturing sites in Italy, Czech Republic, Serbia and Brazil. " We design and manufacture ADVANCED MOTION SOLUTIONS that keep the world moving " .

For our Italian plant, we are looking for

MAINTENANCE TECHNICIAN

Main Responsibilities

- Identify operation anomaly or defects on machines/production lines and react quickly to fix them, in order to reduce the impact on production.
- Work on routine, extraordinary and preventive maintenance, reporting the implemented actions.
- Work in collaboration with Industrial Engineering to the installation, modification, movement of machines and to the start-up of new production.
- Train and assist production operators on daily maintenance services.
- Work observing safety rules and procedures.
- Use machine tools linked to maintenance.
- Communicate with Maintenance Coordinator about the needed materials, components and tools.
- Supervise the intervention made on machines by third parties.

Desired Skills

- Experience of at least 4-5 years in mechanical / pneumatic / hydraulic / electrical or electronic maintenance.
- Experience in maintenance of automation lines (automotive, pharmaceutical and food industries).
- Knowledge of mechanics, pneumatics and/or electrotechnics.
- Knowledge of measurement instrument.
- Flexible and available to work on shifts.
- Quick learner.
- Able to work in a team but autonomous in the execution of his/her tasks.
- Basic IT knowledge.
- Problem solving and proactive approach.
- Knowledge of lean manufacturing and 5S.
