Interclean Amsterdam 2024 – MAE is presenting the latest highlights

From May 14th to 17th, 2024, the Interclean exhibition in Amsterdam opens the doors to the world's experts for cleaning and hygiene. As a renowned supplier for the cleaning and hygiene market, MAE, a brand of AMETEK, is taking part as exhibitor. In **Hall 7 at booth 420**, MAE is presenting their latest innovations for the cleaning market.

The blowers of MAE have been used for many years for the suction function of scrubber-driers. They suppress with excellent air performance, quiet operation, high speed, and a very good power, size and weight ratio. Additionally, all products are equipped with the best-in-class energy efficiency according to the new Ecodesign Directive and are made in Europe.

Especially the new By-Pass Universal Blower BU 82 2-stage, available as AC and DC version, has been developed for the unique performance requirements of scrubbers. The blower offers high efficiency in a small and compact design. Due to its low weight, it is perfectly suited for mobile devices, and impresses with additional features such as an extended service life and other characteristics beneficial for their use in scrubber driers.

In the range of brushless blowers and motors, MAE presents the new BB 42 By Pass: A high-speed BLDC blower with on-board speed control and optimized air flow system. Furthermore, it is excellently suited for battery-powered applications due to high efficiency and has an outstanding air-performance compared to package size.

Another highlight is MAE's 89 motor platform, available in both, By Pass and Thru-Flow configurations in AC and DC versions. Offering increased efficiency and reduced noise emissions, this brushless blower has a robust aluminum housing and impeller, ensuring durability and optimal performance. With on-board drive control and closed-loop speed regulation, it's a versatile solution for various cleaning equipment.

AMETEK, Inc. is a leading global provider of industrial technology solutions serving a diverse set of attractive niche markets with annual sales over \$6.0 billion.

PRESS RELEASE

of AMETEK SRL in February 2024

Dunkermotoren, the sister company of MAE and also a brand of AMETEK, is co-exhibiting at the MAE booth. Dunkermotoren is well-known in the field of industrial automation and automated guided vehicles (AGVs) and offers experience valuable for applications such as autonomous and ride-on cleaning machines. The BLDC motor BG 66 **dPro** with the NG 250 hub gearbox is the perfect travel drive for cleaning robots. The solution impresses with a compact and robust design, a long service-life, and is available in various sizes and with different radial load capacity – all made in Germany.
